The faculty and staff of Shaw High School are excited to begin a new school year. At Shaw, we are on a mission to be recognized as a premiere high school, and for us, we intend to strive for excellence in all we do for our students. We had a great meeting this summer with our leadership team to craft our focus for 201-2019, and we agreed on the following areas:

- Continue to improve upon our implementation of PLCs, focusing on a collaborative approach with administration and teachers.
- Cultivate a culture of excellence that motivates and celebrates our students and faculty to perform at optimal levels.

We welcome parents to take an active role in all aspects of education and know that such involvement positively impacts both the school and the student. To maximize learning opportunities, we desire the following:

- No more than 5 student absences
- Student(s) on-time daily
- Encourage students turn in all assignments in a timely manner
- Attend PTO meetings
- Utilize Parent Portal to access/monitor student progress
- Maintain accurate contact information on file
- Promote responsible access to social media/online access
- Support the school rules and behavior expectations
- Communicate with faculty and staff

Shaw has a rich tradition of success about which our stakeholders can be proud, for indeed, “It’s Great to be a Shaw Raider!”
